### **SECTION A - GENERAL INFORMATION**

1. The purpose of this solicitation is to establish a Commercial Long Term Indefinite Delivery Purchase Order (IDPO) for the supplies listed in Section B to provide coverage for military customers in the continental United States (CONUS) and military customers outside of the continental United States (OCONUS). The coverage will entail the contractor to deliver items to a military stock location (stock order). FOB destination is required, thus transportation charges will be included in the unit prices. The contract will be for one year with (2) 12-month options to extend the contract terms at the government's discretion. However, the contract will not exceed three years and/or the \$5 million threshold. Awards will be made "all or none" by National Stock Number (NSN), resulting in possible split awards.
2. The following method will be used to place orders under the contract: The Defense Supply Center Columbus will issue delivery orders to awardee(s) for the supplies cited in Section B. The orders may be issued Electronic Data Interchange (EDI) or in writing using a DD Form 1155. EDI invoicing will be mandatory.
3. The proposals received in response to this solicitation will be evaluated under "Best Value" procedures as described in Section M.

### **SECTION B SCHEDULE OF SUPPLIES**

1. The scope of this initiative is to provide long-term contract coverage for electronic commercial NSNs. All NSNs are available for download from the World Wide Web at [www.dscc.dla.mil](http://www.dscc.dla.mil). After reaching the website, click on "Doing Business with DSCC". Next, click on "Business Opportunities" and then "Electronics Supply Partnership Initiative". The complete solicitation along with applicable attachments, is located under the subject solicitation number.
2. The supplies covered by this solicitation are listed in the spreadsheet labeled "Schedule B" (Excel format). The schedule contains items currently managed by the Defense Supply Center Columbus.
3. Each offeror must download and copy the spreadsheet to a disk. Offered prices and deliveries must be provided on the disk and returned to DSCC along with their complete proposal. Each offeror must clearly identify the disk with name and cage code and ensure that the disk is virus free. **Please do not alter the format of the spreadsheet.**
4. The following information is provided to explain the Section B Excel Spreadsheet located as an attachment on-line.

(A) CLIN

(B) NSN (National Stock Number) and (C) ITEM NAME - Identifies the national stock number and the item name.

(D) UI - Unit of issue.

(E) AMSC - Acquisition Method Suffix Code. AMSC of B identifies items that must be acquired from a manufacturing source specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. AMSC of C identifies items requiring engineering source approval by the design control activity in order to maintain the quality of the part. AMSC of H identifies items in which the Government physically does not have in its possession sufficient, accurate or legible data to purchase the parts from other than the current source. AMSC of G identifies items the Government has unlimited rights to the technical data and the data package is complete. AMSC of P identifies items in which the rights to use the data needed to purchase this part from additional sources are not owned by the Government and cannot be purchased. AMSC of R identifies in which the data or the rights to use the data needed to purchase this part from additional sources are not owned by the Government and it has been determined that it is uneconomical to purchase them. AMSC of Z identifies the part as a commercial, non-developmental or off the shelf item.

(AC) REMARKS - Any exceptions, alternate offers, and/or other relevant information should be annotated in this column.

(AD) M08 RANGE THAT WILL BE WEIGHTED 2 – Offerors total estimated price for each CLIN will be determined using weighted average. 5. **OFFEROR’S UNIT PRICE(S).** Offerors are to annotate the prices that will be charged to the government for each NSN. Unit prices shall be based on F.O.B. Destination to any stock location. OCONUS will be shipped to a CONUS shipping location (CCP – Container Consolidation Point or freight forwarder). Prices are to be based on the estimated annual demand quantity as provided. These numbers are based on the best projections available at the time of this solicitation and are subject to change. It is important to note however, that those NSNs with annual demands of zero do not necessarily have zero demands. They may in fact be items for which historical data is otherwise incomplete or unavailable, or items for which the government has no recurring demands and therefore cannot forecast any realistic estimates. Offerors are encouraged to submit offers consistent with quantities reflected in their own historical data where available. Prices shall include applicable preparation for delivery charges. Packaging will be in accordance with that shown in Section D and any associated costs should be included in the offeror’s proposed unit price.

6. **OPTION YEAR -** (See Clause I27): Option year pricing will utilize Economic Price Adjustment. Please read applicable clause.

However, the total duration of the contract, including option years, shall neither exceed three years nor shall it exceed the \$5,000,000 threshold. In order to exercise the option, the Contracting Officer will provide written notice to the contractor at least fourteen days prior to the expiration date of the contract. (See Clauses I40 and I66)

This clause is applicable to all contracts for QPL or QML integrated circuits or hybrid semiconductor devices procured in accordance with MIL-PRF-38510, MIL-PRF-38534 or MIL-PRF-38535, and semiconductor devices procured in accordance with MIL-PRF-19500. This clause applies regardless of the point of inspection designated in the award. This clause applies not only to contracts with suppliers (ex; dealers or distributors) not listed as approved manufacturers on the applicable QPL/QML, but also to contracts awarded directly to a manufacturer listed on the applicable QPL/QML.

In addition, if the material is not procured directly from the approved manufacturer, all additional documentation required by the specification must be provided to establish traceability from the QPL/QML manufacturer through delivery to the Government. The CoC/T is required to determine acceptability of the supplies. If the CoC/T is not provided, is incomplete or otherwise unacceptable, the supplies will be determined not to meet contract requirements and will be rejected.

If the contract requires inspection and acceptance at origin, the contractor shall furnish the original and three copies of the CoC/T to the Government Quality Assurance Representative (QAR) with the items offered for acceptance. ## SECTION H

H09 - ELECTRONIC INVOICING (DSCC 52.232-9C04) (OCT 2000)

This contract will require the offeror to transmit all invoices electronically. This involves entering into a Trading Partner Agreement with DFAS-Columbus, where the offeror must first register with DFAS-CO, and then go through a testing process before actual live invoices will be accepted for payment. Vendors may invoice electronically either by using a Value Added Network, or by using the DFAS Web Invoicing System (WINS).

For detailed information concerning electronic invoicing applications, EDI transaction sets, and ANSI X12 standards that are currently being used, the offeror should call the EDI Office at DFAS-CO, telephone 614-693-6868 or 614-693-5627. Vendor may also visit the following DFAS Web Sites to learn more about Electronic Invoicing:

<https://ecweb.dfas.mil>

This above site is for DFAS-CO Web based Invoicing System (WINS). Look under the Help Button for 'These are your Web Invoice Test Partners'

<http://www.dfas.mil>

Under the topic of Electronic Commerce there is a description of all DFAS EDI Initiatives.

H13 - ORDER TRANSMISSION (DSCC 52.215-9C20) (FEB 2001)

Supplies procured through the Defense Supply Center Columbus (DSCC) may be ordered via the Paperless Order Placement System (POPS) or the Electronic Procurement Program Interface (EPPI). Offerors must check one of the following alternatives for paperless order transmission:

( ) Electronic Data Interchange (EDI) transmissions in accordance with ANSI X12 Standards through a registered Value Added Network (VAN).

( ) Electronic Mail (email) award notifications containing Web links to electronic copies of the DD Form 1155, Order for Supplies or Services (orders are stored in Portable Document Format (PDF) and accessing them requires a free Adobe Acrobat Reader plug-in).

Offerors choosing email notification for order transmission shall register their email address on the DSCC Internet Bid Board System (DIBBS) at <http://DIBBS.dscclia.mil> within 7 days after date of award. Successful offerors are responsible for updating DIBBS when there is a change in the email address for receipt of orders. The applicable email address is contained in the DIBBS registration under the section entitled 'E-Mail Address for Receipt of DSCC Awards / Information.'

Offerors choosing EDI for order transmission will receive transaction sets at time of award. The Contractor shall acknowledge receipt of each order by transmitting a functional acknowledgement or order receipt message within 24 hours,

except for weekends and holidays where acknowledgement shall be the next working day. Failure to establish system(s) connectivity for successfully receiving and processing EDI orders within 30 days after date of award may be grounds for termination of the contract by the Government.

Issuance of an EDI transmission or email notification constitutes a binding order. Successful offerors are authorized and expected to commence performance upon receipt. The statement 'POPS Auto Award' or 'EPPI Auto Award' in block 24 of the DD Form 1155 constitutes the contracting officer's signature.

NOTE: Questions concerning POPS or EPPI should be directed to Paul Bosak at (614) 692-3559.

The samples will be furnished at no cost to the Government. All such samples not destroyed in evaluation will be returned at the Offeror's expense. The samples will be evaluated for form, fit, and function with subassembly, assembly, or equipment with which the items are to be used. End items furnished under any contract award to the Offeror furnishing the samples can include the returned samples, and all acceptable end items will have a configuration identical to the samples. If specific tests of the samples' performance are made by the Government, the Offeror will be furnished the results of such tests prior to a contract being entered into. In addition to any other inspection examinations and tests required by the contract, the performance of the end items will be required to be as good as that of the samples submitted insofar as specific performance tests have been made by the Government and the results thereof furnished to the Offeror.

(i) In the event of award, the Contractor will be responsible for providing material that is in full compliance with all requirements in the contract or order, whether or not the Contractor has possession of applicable drawings or specifications, and despite the fact that the Government is unable to conduct in-process inspection. The Contractor's responsibility to perform is not diminished by compliance with the requirement to demonstrate that the offered material was previously owned by the Government. The material to be furnished must meet the requirements of the current contract or order, whether or not the material met Government requirements in existence at the time the material was initially manufactured or sold to the Government. The Government has the right to cancel any resulting purchase order or terminate any resulting contract for default if unacceptable material is tendered.

(j) If higher level quality requirements apply to the material being acquired, those requirements do not apply to surplus material furnished under this contract.

I20 - PRODUCTION FACILITY CHANGES (DSCC 52.215-9C04) (APR 1985)

I27 - ECONOMIC PRICE ADJUSTMENT - OPTION PERIOD PRICING FOR INDEFINITE DELIVERY TYPE CONTRACT(S) (DSCC 52.216-9C41) (MAY 2001)

(a) Definitions: As used in this clause,

(1) The term 'contract date' means:

(i) the date of bid opening for advertised solicitations. If the solicitation contains a set-aside portion, the 'contract date' for the set-aside portion will be the date of bid opening for the non set-aside portion;

(ii) the date of award for negotiated solicitations. If the solicitation contains a set-aside portion, the contract date for the set-aside portion will be the date of award of the non set-aside portion.

(2) The term 'contract year' means a period of 365 days beginning on the contract date.

(b) The economic indicator for the purpose of price adjustment under this clause shall be the final version (generally published 4 months after initial publication) of the Producer Price Index (PPI) stated below in the monthly report entitled 'Producer Prices and Price Indexes' by the Bureau of Labor Statistics, U.S. Department of Labor. The applicable PPI is: CODE NO. PCU3679

COMMODITY: Electronic Components, n.e.c.

(c) The intent of this clause is to establish a revised contract unit price at the beginning of each option period that will be valid for the entire option period. The base index for each option period shall be the most current published final PPI, cited in (b) above, that is available to the contracting activity at the time of contract award/exercise of option. For any subsequent option periods, the adjusting index (see paragraph (d) below) that was used for the preceding year will become the base index for the succeeding year. For example, the adjusting index used for the first option period of the contract would become the base index for the second option period of the contract.

(d) The adjusting index for the option period(s) shall be the most current published final PPI stated in (b) above, that is available to the contracting activity at the time the modification is issued extending the contract period.

(e) When the contract period is extended, the procuring contracting officer will compute the price adjustment to be made for each contract line item, as provided in subparagraphs (1), (2), and (3) below. The adjusted prices will be included in the modification issued to extend the contract period and will be used in pricing all delivery orders issued during the extended period of the contract. No other adjustments shall be made to the contract prices during each contract year.

(1) The contract unit prices for supplies (excluding data or First Article Test CLINS) shall be subject to adjustment upward or downward by the percent of difference between the base index and the adjusting index. If the contract unit prices are decreased pursuant to the changes clause or other terms of the contract, the decreased unit prices shall be used for adjustment purposes in lieu of the contract unit prices. Any increase in the contract unit prices after contract date will be subject to adjustment as authorized by the modification.

(2) Price decreases under paragraph (e) (1) above are not subject to any limitation. Price increases shall not exceed 10 percent of the original contract unit price for each contract year.

(3) Price adjustments pursuant to this clause will be made by modification to the contract which will show the base index, the adjusting index and the percentage of difference of these, rounded off to the fifth decimal place, then applied to the contract unit price.

EXAMPLE:

Assume: Base Index = 150.3

Adjusting Index = 165.1

Contract Unit Price = \$8.33

Adjustment Formula: Revised price equals (adjusting index)

divided by (base index) times (contract unit price), or, based upon above,

(165.1 divided by 150.3 = 1.09847) times \$8.33 = \$9.15025,

revised price, rounded to \$9.15 = adjusted unit price

The adjusted unit price will be rounded to the nearest cent,

i.e., increases amounting to \$.005 to \$.009 shall be rounded upward to the next cent and changes of \$.001 to \$.004 shall be rounded to the lower cent.

(f) If the contracting officer determines that the index consistently and substantially fails to reflect market conditions, the contracting officer may amend the contract to specify use of an appropriate substitute index, effective on the date the index specified in the contract begins to

## I66 - INDEFINITE DELIVERY PURCHASE ORDER (IDPO) CONTRACT (MAR 2003) (DSCC 52.213-9C03)

NOTICE: The Government desires to enter into an IDPO contract. However, quotes which do not include agreement with the following clause will be considered. Such quotes may be accepted if in the best interest of the Government, considering all stated evaluation factors.

(a) The contractor ( ) agrees/ ( ) does not agree that it will accept additional orders under the same terms and conditions specified in the purchase order. This agreement becomes binding upon delivery of the initial order, which is the minimum quantity for this IDPO. As the initial award represents the minimum quantity, the Government is under no obligation to place additional orders under this contract. The Government may place additional orders for a period of year(s) from the date of the initial order. All additional orders will reference the initial order. (Numbering) The aggregate value of all orders, including the initial order, shall not exceed the simplified acquisition threshold. Therefore, the maximum quantity under the IDPO is \$100,000, or \$5,000,000 for acquisitions conducted under FAR Subpart 13.5.

(b) Evaluation of Quotes. If quotes include variable pricing based upon conditions such as quantity ranges, transportation zones, and/or option years, quotes will be evaluated by establishing an average unit price. The average unit price will be established by adding all unit prices together, then dividing the sum by the number of unit prices.

(c) Pricing of Additional Orders. When issuing additional orders the unit price shall be based on the price from the quantity range that will cover the total quantity on the order, regardless of destination.

(d) Numbering. The uniform procurement instrument identification numbering (PIIN) system will be used. The IDPO Agreement and subsequent orders will be distinguished by a 'D' in the ninth position, and a '5' in the tenth position of the PIIN. The first order will be numbered with a sub-PIIN of '0001'. Subsequent orders will be serially numbered with sub-PIINs of '0002' through '9999'.

**L07 - AVAILABILITY OF DRAWINGS** (DSCC 52.211-9C13) (JAN 2003)

The primary source for drawings, which support DSCC solicitations, is the DSCC Bid set Interface (DBI) website. The website is available through the DSCC Internet Bid Board System (DIBBS). All drawings available on the DBI website must be viewed and/or downloaded from the website. Requests for hard copy or CD-ROM copies of drawings that are available on DBI will be returned unprocessed.

Request for drawings that are listed on the DBI, as 'Restricted, Available to Authorized Vendors only', must be ordered by clicking on the 'Order via CD-ROM'. An automated order form will appear with the Solicitation #, Return by Date and NSN populating the first three fields of the form for your convenience. It is important that the 'Certification # and Certification Date' are completed on the form. Failure to provide complete information will cause delays in issuance of

the requested drawing(s). All requests for restricted drawings will be provided on CD-ROM. Allow seven days for receipt of the CD. If you have any questions about your order after seven days call 614-692-1204.

To assist us in operating this website feature, we have established a vendor-interactive e-mail address at dbi-drawings(at)dsccl.dla.mil. If you are reading solicitations and accessing available bid sets and discover a discrepancy between what is listed in the 'Item Description' of the solicitation and what is available in the bid set drawing list, we request that you send an e-mail message describing the discrepancy. You may advise us in instances such as, 'wrong revision level in the DRT', 'drawing(s) in the solicitation, but none in DBI', or 'additional drawings in the solicitation and not available in DBI'.

**CAUTIONARY NOTE:** It is your responsibility to make sure that you obtain and use the drawings and revision levels that are called out in the solicitation.

If you have any questions about the operation of the DBI website (drawing questions only), call 614-692-3207 or 614-692-1204.

**FOR LONG TERM CONTRACTS, WITH MULTIPLE NSNS, THAT REQUIRE DRAWINGS.**

To obtain the CD-ROM drawings contact the Long Term Contract Drawing Monitor via email: Leonard.gutter(at)dsccl.dla.mil. Questions or comments may be directed to Leonard Gutter at 614-692-2306.

## SECTION M

### M02 - SCOPE OF THIS SOLICITATION (DSCC 52.215-9C29) (JUN 2000)

a. If this solicitation calls for offers on quantity ranges, any resulting award will be for a quantity of units falling within one of the specific range. The unit price applicable to the entire quantity awarded shall be the unit price offered for the quantity range in which the quantity awarded falls.  
b. Quantity Ranges: If the offeror desires to offer the same price for all ranges of that item, he may state that the unit price applies to all ranges of that item, instead of repeating the same unit price in all columns. If the offeror desires to offer different prices for any range of any item, he must insert a unit price in each quantity range column.  
c. When quantity ranges are solicited award may be made without discussion to the offeror offering the quantity and price combination most advantageous to the Government.

### M08 - WEIGHTED AVERAGE PRICE EVALUATION METHOD (DSCC 52.215-9C19) (SEP 2000)

(a) An award or combination of awards will be made under this solicitation based on the offer or offers which represent the best value to the Government. Together with any other evaluation factors specified in this solicitation, offered price(s) will be evaluated as follows.

(b) The total estimated price for each item in the schedule will be determined in accordance with subparagraphs (1) through (3) below. For the purpose of evaluating prices offered, each quantity increment of the schedule has been weighted (if nothing is entered below all weights are considered to have a value of one(1)). These weights have been assigned on the basis of the heaviest weights on those increments wherein the Government estimates the orders are most likely to be placed. By use of the following weights a weighted average price will be developed for each item using the formula stated in subparagraphs (1) through (3) below.

INCREMENT	WEIGHT
A	SEE SCHED
B	B FOR INC
C	WEIGHTED 2
D	ALL OTHER
E	INC ARE
F	WEIGHTED 1

(1) The weighted average price (for a given item for a given year) will be arrived at as follows:  
(Offered unit price) x (increment weight) = weighted unit price

(Sum of weighted unit prices) divided by (the sum of the weights) = weighted average price.

(2) (The weighted average price) x (the estimated annual requirement) = estimated annual cost for a given item for a given year.

(3) The sum of the estimated annual costs for a given item for the base year plus any option periods = the total estimated cost for that item.

(c) Prices offered must be unit prices only which are clearly stated and require no further interpretation by the Government to determine the actual offered price. Prices must not be stated as part of a pricing formula or as charges per lot. Unit prices offered must include costs of compliance with all solicitation requirements, with the exception of additive CLINS, addressed below. For each item of supply for which a price is offered, prices must be offered for each quantity increment and year.

(d) Additive CLINS reflect special testing or data requirements. In the event such requirements exist, they will be specified in Section B of the solicitation. The offered price for these special requirements will be added to the associated materiel CLIN after calculation of the total estimated item cost as described in subparagraph (b)(3) above. If there are several CLINS for the same item with special additive CLIN requirements such costs will be added to each CLIN total estimated cost in a proportion equal to the number of CLINS. In the event an offeror is low only on one CLIN where there are several CLINS for the same item, the cost of special testing or data pertaining to that CLIN will be added for evaluation purposes to accurately reflect all associated costs.

(e) If this solicitation is a sealed bid, award will be made to the responsible, responsive offeror submitting the lowest overall bid. If this solicitation is an RFP, failure to

## FAR 52.212-2 EVALUATION - COMMERCIAL ITEMS (JAN 1999)

Price  
Past Performance  
Proposed Delivery  
Technical and past performance, when combined, are

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

### **Information to Offerors**

Each offeror will be assigned an ABVS score based upon its past performance.

(1) Past Performance:

- (a) Past Performance information is maintained for performance under all procurements with the Defense Logistics Agency (DLA). \*\* Overall performance is evaluated as is performance in each Federal supply Class (FSC). This information is used to generate ABVS ratings which are based on the following indicators:

Delivery Delinquencies

- Number
- Severity
- Contractor Caused Terminations, Cancellations, and Withdrawals

For administrative purposes, the delivery rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the Contract Delivery Date (CDD).

Quality Complaints

- Product Nonconformance/Laboratory Test Failures
- Packaging Nonconformances

For administrative purposes, the quality rating period excludes the most recent 30 days.

\*\* The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at [https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public\\_BSM.asp](https://www.webflis.dlis.dla.mil/WEBFLIS/ASPscripts/Public_BSM.asp). Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or

SECTION L		

SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Vendor Information Center at <http://131.70.202.70/j%2D6/bsm/test/vic.htm>.

NOTE : The above 60 and 30 day offset periods are NOT grace periods.

- (2) ABVS rating does not determine an offeror's award eligibility, or technical acceptability, nor does it constitute a responsibility or non-responsibility determination.
- (3) By accessing the DSCC Internet Bid Board System (DIBBS), (<http://dibbs.dsccols.com/>), each offeror will be provided the opportunity to review their ABVS scores and negative historical performance data. For any questions or challenges to negative performance data, please forward requests/challenges to an ABVS Administrator at the below cited address, or telephone/fax an Administrator at one of the provided numbers:

- (4) When a discrepancy between contractor data and Government data occurs, the Government will make every effort to resolve the discrepancy expeditiously. However, the Government may make an award decision despite the existence of an unresolved challenge. The Government is the final authority for resolution of disputed data and its use in the source selection process.

**EVALUATION FACTOR FOR AWARD**

**General Basis for Award:**

☐ **Multiple Awards:** The Government intends to make an award to the offeror that represents the best value to the Government. Additional awards may be made to offeror(s) representing the next best value(s). Award(s) will be made in the combination that will assure the Government's needs in terms of delivery, quality, and price will be met during the life of the contract(s). However, the government will award no more than [REDACTED] contracts per NSN or CLIN groups as a result of this solicitation.

☒ **Single Award:** The award of each item of supply specified in this solicitation will be made to the responsible offeror whose offer conforms with the solicitation and is most advantageous to the Government. In making the best value determination, the Government will make a comparative assessment of the offers.

All proposals will be evaluated to determine that the offered price(s) reflects a technical understanding of the requirement and those considered unrealistic may be rejected.

**Evaluation Factors:**

The following factors, ranked in descending order of importance, will be considered in the evaluation of proposals received under this solicitation:

1. Price
2. Past Performance
3. Proposed Delivery

All evaluation factors other than cost or price, when combined, are significantly less important than cost or price.

**Past Performance:** The government will consider the offeror's Automated Best Value system (ABVS) score and any other information provided relating to the offeror's performance (see Section L). The government will review and evaluate the offerors reputation for conforming to specifications, to the standards of good workmanship, adherence to contract schedules, commitment to customer satisfaction, and cooperative behavior.

**Proposed Delivery:** Offerors will be evaluated on their offered delivery as compared to the government's required delivery. In support of DSCC's FY03 Initiative to reduce Production Lead-time, preference may be given for offers with delivery schedules shorter than the requested delivery.
